**Being an authority on disputes with a stellar track record of legal excellence and innovation is what initially forged Jay Strosberg’s reputation. But being exceptionally skilled at developing and maintaining relationships and running complex, lengthy cases is what makes him truly unique. Jay’s ability to make the inharmonious harmonious is why he is regarded as one of Canada’s leading practitioners at structuring and litigating national and international class actions.**

Jay is currently acting for claimants on some of the world’s largest and most significant competition proceedings, in particular multi-billion-dollar class actions in Canada over bread price-fixing and Amazon’s MFN clauses, amongst other claims. He has also recovered hundreds of millions of dollars for his clients in securities class actions. Chambers-ranked Jay was previously named by Lexpert as one of Canada’s ‘Rising Stars – Top 40 Lawyers Under 40 in Canada’, as a ‘Consistently Recommended’ leading practitioner in class actions and as a leading cross-border class action lawyer. Jay was also one of the youngest Candian lawyers to be included in the Lexpert/American Lawyer Guide to the Leading 500 Lawyers in Canada. Jay speaks frequently as an expert on advocacy, class actions and cross-border litigation.
